

Water content measurement of Liquefied Petroleum Gas system in the absence and presence of hydrate	Abdul Majid Ahmad Afif
Automated Neural Network Guest-Host Potentials and Quantum Spectra for CO <sub>2</sub> @sI Clathrate Hydrate @sI Clathrate Hydrate	Prosmi Rita
Clogging and Self-Unclogging Behaviors of Dominant Seepage Channels During Exploitation of Clayey Silt Reservoir in the South China Sea	Qi Minhui
CO <sub>2</sub> hydrate-based onshore transport as a complementary pathway for centralized CCS hubs	Viriyakul Chakorn , Rangsunvigit Pramoch
Comparing the effects of THF and 1,3-dioxolane on CH <sub>4</sub> hydrate equilibrium pressures and hydrate cage occupancies	Bhawangirkar Dnyaneshwar R. , Gaikwad Namrata
Crystal facet-dependent wettability of quartz and its effect on the formation and decomposition of natural gas hydrate	Deng Yajun
Natural Gas Hydrate Equilibrium Meter: A Rapid and Accurate Hydrate Prediction Tool	Chen Litao
Effect of gas hydrates on physical properties of permafrost	Chuvilin Evgeny
Capture of Low-Concentration Coalbed Methane Using the "Methane Enrichment - Hydration"	Fan Shuanshi
Carbon Capture from Simulated Flue Gas using Gas Hydrates	K V Syam
Effect of Thermal Conductivity Characteristics in Marine Natural Gas Hydrate Reservoirs on Hydrate Phase Transition	Yan Kefeng
Methane Gas Loading via Seeded Hydrate Growth on Pure sII-Structured Hydrate Pellets under Mild Conditions	Jeenmuang Kan
Grain Boundary-Facilitated CO <sub>2</sub> /CH <sub>4</sub> Replacement in Gas Hydrate	Zhang Zhengcai
Enhanced H <sub>2</sub> uptake in clathrate hydrates via alkyl polyglycoside-stabilized cyclopentane-in-water micro-emulsion	Zhang Jibao
Hydroquinone clathrates as hydrogen storage alternative: a Molecular Simulation approach	Piñeiro Manuel M.
Fate and Transport of Methane from Deep-Sea Cold Seeps: A Multiphase Coupled Model Integrating Hydrate Shell Evolution and Bubble Plume Dynamics	Li Canrong , Feng Jingchun
Insights into the role of peptide hydrophobicity on methane hydration formation: experiments and molecular dynamics simulations	Radola Bastien
In-situ Occurrence State of Triphasic Coexisting Layer Natural Gas Hydrate Deposits and Associated Resource Effects	Xu Chenlu
Integration of TBAB-Seawater Semi-Clathrate Hydrates for Sustainable Cold Chain Applications	Viriyakul Chakorn , Rangsunvigit Pramoch
Effects of underlying free gas on energy recovery from water-saturated hydrate-bearing sediments via depressurization	Li Shuaijun
Hydrate dissolution induced by undersaturated water flow in hydrate exploitation: Insights from derivation and numerical simulation	Liu Haotian
Microscopic Influence of Wax and Anti-Agglomerant on Methane Hydrate Growth	Bohui Shi
Modeling of hydrogen hydroquinone clathrate stability conditions and storage capacity	Miqueu Christelle
Molecular simulation study on CO <sub>2</sub> sequestration via clathrate hydrate formation in marine sediments	He Zhongjin

Molecular Simulations and Thermodynamic Modelling for gas hydrate-based Decarbonisation Processes and niche applications	Choudhary Nilesh
Insight into Hydrate-based CO <sub>2</sub> Sequestration in Marine Sediments from Molecular Dynamics Simulation	Zheng Xin
Data-Driven Mechanical-Modeling Framework for Methane Hydrate-Bearing Soils	Pinkert Shmulik
Physicochemical Coupling at Hydrate Sediment Interfaces Determines Crystal Growth and Stability	Liu Dongyan
Effect of Unevenly Distributed Proppant on Fracture Conductivity in Near-Wellbore Hydrate Reservoirs	Qiang Siqi
Enhanced production efficiency of optimized fluid transport behavior via well scheme in gas hydrate reservoirs	Qu Aoxing
Pore-scale Investigation of Xenon Hydrate Dynamics via an Integrated Framework of X-ray CT Measurement and Numerical Simulation	Zhao Jianyu , Li Gang
Marine Clay-Methane Hydrate Interactions: Advancing thermodynamics, kinetics and production strategies for natural gas hydrates	Ren Junjie
Probing the role of subcooling in H <sub>2</sub> -DIOX hydrate crystal growth and cage occupancy: insights from morphology and in situ Raman analysis in high-pressure micro capillaries	Li Yan
Promotion and inhibition effect of 1,3-dioxolane on CH <sub>4</sub> hydrate equilibrium pressures and hydrate cage occupancies	Bhawangirkar Dnyaneshwar R. , Yin Zhenyuan
Measurement of interfacial tension of decane/water system pressurized with hydrogen	Sasaki Taiga
Quaternary Deep-water Sedimentary Characteristics and Its Relationship with Gas Hydrate Accumulations in the Qiongdongnan Basin of the South China Sea	Miaomiao Meng
Gas Hydrate Studies on Water-based Drilling Fluid (WDFs)	Singh Aniket
Recent Advancements in the Fundamental Understanding in the Role of Additives in Modulating Clathrate Hydrates	Striolo Alberto
Comprehensive Study on CO <sub>2</sub> Hydrate Storage in Submarine Sediments: Formation, Stability, and Optimization	Sun Huiru
Microbial-Induced Carbonate Precipitation for Sand Control in Natural Gas Hydrate Reservoirs: Mechanism and Feasibility Evaluation	Sun Jiabin
Recoverable and reusable imidazolium-based ionic liquids as kinetic promoters for methane hydrate formation	Sa Jeong-Hoon
Investigation of Sand Production Mitigation Utilizing Short Fiber Reinforced Microbially Induced Carbonate Precipitation (MICP) with Thickening Agents	Takayasu Hayato
Unraveling Turbidite Distribution in Hydrate Zones: Integrating Structural Restoration and Forward Modelling in Offshore Shima Peninsula, Eastern Nankai Trough, Japan	Tsukada Yasumoto
Cleaner and safer deepwater natural gas exploitation through reservoir-overburden stimulation with CO <sub>2</sub> mineralization	Wang Xiaochu , Guo Wei
Determination of the Key Parameters for CO <sub>2</sub> Hydrate Formation and Dissociation in Porous Media	Weng Yi-Fan , Li Gang
Dynamics of hydrate cap formation upon liquid CO <sub>2</sub> migration in marine sediments	Wu Mingyu
Experimental and Numerical Analysis of Production Pressure Effects on Hydrate Dissociation with Full-sized Sand Screen	Xu Ran, Li Gang

The Impact of High Acetic Acid Content on MEG's performance as Natural Gas hydrate Thermodynamic Inhibitors	Lal Bhajan
The dynamic characteristic of reservoir changes during the joint exploitation of natural gas hydrate and shallow gas within the same wellbore	Pang Weixin
Gas Production Optimization of Multi-Type Natural Gas Hydrate Reservoirs: Integration of Three-Gas Co-Production and Reservoir-Specific Characteristics	Ye Hongyu
Molecular Insights into the Role of Leucine in sII Hydrogen Hydrate Crystalization	Zhang Ye
Microfluidic investigation on CO <sub>2</sub> self-storage behavior in submarine sediment using artificial intelligence image recognition	Zhong Jinrong
Molecular simulation study on the decomposition and degassing processes of natural gas hydrates	Zhongjin He , Ning Fulong

Stability of Clathrate Hydrates in CO <sub>2</sub> -H <sub>2</sub> O and CO <sub>2</sub> -NaCl-H <sub>2</sub> O Systems: Formation Kinetics from Parametrized Ice Particles	Abuhuraira Muhammad
Quantitative Characterization of Gas Hydrate Reformation during Depressurization-Based Production	Ahn Taewoong
Zeolite -Gas Hydrate Composite Systems for CO <sub>2</sub> Storage	Al Khawand Sireen
Rheological Characterization of Semiclathrate Hydrate Slurries for Cooling Applications	Babu Ponnivalavan
Carbon Dioxide Capture in the Low-Pressure Region Using Semi-Clathrate Hydrates	An Yoonseo
Thermodynamic inhibition effect of asymmetric quaternary ammonium salt on methane hydrate formation	Ayumu Asano
Linking Gas-Phase CH <sub>4</sub> /CO <sub>2</sub> Molar Ratio to Hydrate-Based Biogas Upgrading via Raman Spectroscopy	Barbacane Nadia
The Possible Disturbances of Ionic Liquids Water-Based Mud Systems on Methane Hydrate Sediments Phase Behavior	Bavoh Cornelius, Ibrahim Najat , Rehman Amirun Nissa , Nashed Omar , Lal Bhajan
Techno-Economic Assessment of Hydrate-Based Cold Energy Storage for Large-Scale Cooling Applications	Bhadani Abhishek , Kushwaha Omkar Singh, Kumar Rajnish
From Sea to Lab: Cryogenic Stabilisation of Pressure Cores	Bigalke Nikolaus
CO <sub>2</sub> hydrate formation in presence of urea: Implication for offshore carbon storage	Bordes Emilie
Equilibrium properties and phase behaviour of carbon dioxide hydrate from coupled Monte Carlo-Molecular Dynamics simulations	Brumby Paul
NMR measurements of Pore Occupancy in Hydrate/Gas/Water Systems	Chan Derrick
Changing CO <sub>2</sub> hydrate crystallization to an opportunity (CO <sub>2</sub> BHYS)	Burnol Andre
Long-term modeling of the crystallization of CO <sub>2</sub> hydrates in a homogeneous sandy overburden (CO <sub>2</sub> BHYS)	Burnol Andre
Mechanism of Fines Migration and Permeability Variation in Hydrate-Bearing Sediments: Experimental Study and Pore-Scale Simulation	Cao Shuang Cindy

Experimental Investigation of Phase Equilibria and Dissociation Behaviour of HFC–CO <sub>2</sub> Mixed Gas Hydrates	Chattaraj Sujoy , Paul Lagnajita , Sharma Subhash Kumar, Kumar Rajnish
Experimental and Modeling investigations on Hydrate Dissociation Kinetics in a Cubic Hydrate Simulation	Chang-Wen Xiao
High Pressure Phase Equilibria Measurements and Modeling of Sour Gas Hydrates with Inhibitors	Chen Jiangzhi
Performance of Depressurization-CO <sub>2</sub> Replacement of Gas Hydrates under Periodic Injection-Production Well Switching	Chen Chen , Zhang Shanling
Pore-Scale Investigation on the Sealing Integrity of Hydrate Cap in Hydrate-based CO <sub>2</sub> Sequestration	Chen Mingqiang
Experimental Measurement and Thermodynamic Simulation of Dissociation Conditions of Hydrogen Hydrate in the Presence of 1,3-Dioxane	Chen Ying
Effects of Different Wax Contents on Hydrate Formation, Blockage, and Depressurization in Oil-Water Systems	Chen Shukai
Conceptual Design of a Novel Mining Vehicle for Deep-Sea Buried Hydrate Extraction Based on Solid-State Fluidization	Chen Ye
Monitor Hydrate Saturation Change and Sedimental Deformation Induced By Hydrate Phase Transition Based on Fiber Bragg Grating Technology	Chen Zhao-Yang
Experimental study on replacement extraction and reservoir deformation of hydrate-bearing sediments with associated gas	Chen Yuzhou, Xiao Peng
Gas Hydrate-Based Fire Extinguishing Agents as an Effective Next-Generation Suppression Technology	Cho Sang-Gyu
Enhanced Depressurization-Assisted Replacement via Control of Dissociation Ratio, Memory Effect, and Injection Rates	Choi Wonjung
Destabilization of intrapermafrost gas hydrates by salt migration from cryopegs: experimental results	Chuvilin Evgeny
Hydrate Formation Kinetics Beyond Subcooling: Experimental Evidence for Optimized Inhibition Approaches	Consoli Nancy , Piseri Chiara
Determination of the water-THF hydrate coexistence line via Molecular Simulation	Cristóbal Romero-Guzmán
Determination of the water-THF hydrate interfacial energy along its coexistence line via Molecular Simulation	Cristóbal Romero-Guzmán
Gas Hydrate Dissociation by Depressurization: Influence of Subcooling, Water Cut and Hydrate Formation Conditions	Davila Evelyn
Pyrrolidone Functional Acrylate and Methacrylate-based Hydrophilic Polymers as Kinetic Hydrate Inhibitors for Methane Hydrates	Elgeneidy Fatma
Raman Spectroscopic Observation of Gas Transfer and Evolution in Hydrate Films with Finite and Infinite Gas Sources	Dilare Kainai
Analysis of gas-water production behavior during gas production from three-gas reservoirs in the Qiongdongnan Basin of the South China Sea	Dong Baocan
IPA Action Group on Permafrost-Associated Gas Hydrates: A geospatial directory of relevant gas hydrate and subsea permafrost metadata	Ebel Lars

Overview of the ThermoFAST Software Package	Falloon Peter
Pore-scale studies of CO <sub>2</sub> -hydrate sealing mechanisms- Effect of Salinity	Ersland Geir
Monitoring Methane Hydrate Formation Kinetics Using a Novel Acoustic Experimental Setup	Fandino Torres Olivia
Dissociation Temperature Determination of CO <sub>2</sub> Gas Hydrates in the Presence of Ethylene-Glycol through Molecular Dynamics Simulations	Ferreira De Souza Nikolas
Nucleation and Growth of Krypton Clathrates	Friedrich Lena
Investigation on Dynamic Phase Transition of Natural Gas Hydrates in Micro/nano Confined Pore Throats using Microfluidics	Fu Qiang
Exploring the Phase Equilibrium of CO <sub>2</sub> Hydrates: A Molecular Dynamics Simulation Study	Fu Ziyi
Determination of Cu, Zn, Pb, and Cr in Marine Gas Hydrate Mud via Microwave-assisted Digestion and ICP-OES: A Chemometric Approach Validated by T-test	Guan Jinan
Representative dynamic accumulation of hydrate-bearing sediments in gas chimney system in the QiongDongNan area, northern South China Sea	Guan Jinan
Tetrabutylammonium Fluoride as a Thermodynamic Promoter for CO <sub>2</sub> /Nitrogen Gas Hydrate Formation under Mild Conditions	Hamdi Zakaria
Effect of phosphonium-based ionic liquids on CH <sub>4</sub> hydrate formation	Ha Jiu
Spatiotemporal Evolution and Sequestration Mechanisms of CO <sub>2</sub> Hydrate in Marine Sediments: Insights from a Novel Large-Scale Multi-Dimensional Simulator	Han Zheng
Structural Characterization of Pure and Mixed Gas Hydrates Using Raman Spectroscopy	Heidari Atousa
Molecular Dynamics Study of CO <sub>2</sub> Semiclathrate Hydrates Using Ab Initio and Machine-Learning Force Fields	Hiratsuka Masaki
Multiscale hydrate testing of two crude oils with interfacial, bench-scale, and flowloop measurements	Hoyt Jordan
Enhanced Desalination Efficiency using HFC Gas Hydrate Pelletization and Induced Melting	Hong Sohee
Hydrophobic Amino Acid-Assisted CO <sub>2</sub> Hydrate Formation in Mixed-Salt Brines: A Thermodynamic and Kinetic Study	Htet Kaung Myat
Cryoscopic decrease effect, as a function of the NaCl concentration, on the carbon dioxide (CO <sub>2</sub> ) hydrate dissociation line	Jesús Algaba Fernández
Experimental Investigation of Sealing Performance in CO <sub>2</sub> Hydrate Storage	Ikegawa Yojiro
Synthesis and characterization of sl CO <sub>2</sub> hydrates coated with sll CP hydrates toward ocean sequestration on the seabed	Jang Sieun
Effect of dispersive interactions on the methane/carbon dioxide hydrate stability conditions	Jesús Algaba Fernández
Regulation of Hydrate Formation by the Structural Evolution of Water Molecules Under Hydrogen-Bonded Confinement	Jiang Zhibo

Study on creep characteristics of clayey silt natural gas hydrate-bearing sediments	Jia Rui
Prediction of Natural Gas Hydrate Saturation via Machine Learning and Well-Seismic Integration	Jiabao Zhang
Solubility of Monoethylene Glycol (MEG) in Carbon Dioxide (CO <sub>2</sub> ): Impact of the MEG distribution on CO <sub>2</sub> Hydrates	Jibril Abdullahi
Cold Seep-Related Gas Hydrate Systems in the Northern South China Sea: Activity and Evolution Constrained by High Chlorinity and Geophysical Data	Jin Jiapeng
Calorimetric Analysis of the Effective Heat of Dissociation of Cyclopentane Hydrate under Quiescent Conditions for Seasonal Thermal Energy Storage	Kang Seong-Pil
Cage Occupancy Analysis in Propane and CO <sub>2</sub> Hydrates: Effects of Cage Volume Through Gibbs Ensemble Monte Carlo Simulations	Kishimoto Hirota
A Transient Multiscale Consolidation (MC) Model for Gas Hydrate Formation and Dissociation in Multiphase Systems: Experimental Validation	Karp Joel R.
Creating Solidified Natural Gas (SNG) to Produce Offshore Petroleum Reserves	Kezirian Michael
Practical CO <sub>2</sub> Hydrate Formation Enabled by Hydrate Seeds and Tailored Kinetic Promoters under Static Conditions	Kim Kwangbum
Rapid and High Hydrogen Uptake in Binary THF-Hydrogen Hydrates Using a Water-in-Oil Emulsion System	Kim Kwangbum
Identification of Methane Hydrate Concentrated Zones offshore Japan	Kobayashi Toshiaki
Hydrate-Based Kinetic Investigation of CO <sub>2</sub> Sequestration in Subsea Clayey Sediments Using Sustainable Promoters	Kumar Yogendra
Novel Magnetic Nanofluids for Sustainable Hydrate-Based CO <sub>2</sub> Capture from Biogas: A Multi-Cycle Circular System for Efficient and Economical Industrial Decarbonization for Climate Action	Kushwaha Omkar
Formation of CO <sub>2</sub> hydrates in marine sediments of the East Sea of Korea toward ocean sequestration	Lee Jiseong
Influence of Heterogeneous Particle Distribution and Effective stress on Permeability of Hydrate-Bearing Sediments	Lei Gang
Effect of Powders and Corroded Steel on Methane Hydrate Formation	Li Chenglong
Construction and Application of a Volumetric-Thermal-Acoustic Synergistic Criterion for Quantitative Characterization of Liquid CO <sub>2</sub> Hydrate	Li Hao
Microscopic Interactions Between Morphological Characteristics and Adhesive Behavior of Gas Hydrates Under Marine Thermodynamic Conditions	Li Wei
Influence Mechanism of Well Location and Near-Well Secondary Hydrates on Gas Production of Class 1S Hydrate Reservoirs	Li Xian
An experimental study on gas-liquid phase fluid migration in hydrate-bearing sediments during hydrate dissociation	Li Yaobin

Mechanistic Role of Na-Bentonite in the Self-Preservation of Methane Hydrates: Experimental and Molecular Dynamics Insights	Lim Junkyu
Kinetic Characterization of CO <sub>2</sub> Hydrate Formation in Sand Sediments	Liang Deqing
The Environmental Impact of Marine Gas Hydrate Production Test of the South China Sea	Liang Qianyong
Effect of Span 80 and hydrophobic silica nanoparticles on hydrate agglomeration characteristics under multiphase flow	Lim Hyoshin
The Influence of Hydrate Heterogeneity on the Physical Properties of In-Situ Generated Hydrate-bearing Sediments	Liu Jian-Wu
Regulatory Mechanisms of Supercooling and Injection Rate on Hydrate Blockage Behaviour and Sequestration Efficiency in CO <sub>2</sub> Storage	Liu Yu
Research on Cementation Strength between Natural Gas Hydrate and Mineral Particles and Its Controlling Factors	Liu Zhih , Liu Zhichao , Ning Fulong
High-resolution X-ray Micro-computed Tomography (HRXCT) Interpretation of Benthic Foraminifera Cibicidoides wuellerstorfi from the Haima Cold Seep, South China Sea	Lu Yinghan
The Role of Finite-Size Effects in the Three-Phase Equilibrium Temperature of Methane Hydrate from Computer Simulations	Maria M. Conde
Quantification of Gas Hydrate Management under Transient Conditions with CO <sub>2</sub> -Enriched Natural Gas	Malacarne Laercio
Phenomenological Analysis of Hydrate-Like Particle Transport in Gas-Liquid-Solid Multiphase Flow	Maldonado Paul A. D
CH <sub>4</sub> -C <sub>3</sub> H <sub>8</sub> mixed gas hydrate behavior in natural marine sediments: Influence of sediment type and dissociation pathways	Mao Peixiao, Schicks Judith
Towards a “good explanation” of hydrate formation and kinetic inhibition	May Eric
High Sedimentation Rates and Shallow Gas Hydrate Occurrence in the Terrebonne Basin	Martin Saffron
Determination of the dissociation line and driving force for nucleation of the multiple occupied nitrogen hydrate from computer simulation	Miguel Jesús Torrejón Ríos
Dissociation line and driving force nucleation of the hydrogen hydrate from computer simulation. Effect of the multiple occupancy	Miguel Jesús Torrejón Ríos
Finite-size effects into carbon dioxide hydrate	Miguez Diaz Jose Manuel
Hydrogen storage: a review of innovative technologies and materials, with a scenario for planetary applications	Moffa Samanta
Efficient wastewater treatment combined with CO <sub>2</sub> removal from exhaust gases via gas hydrate technology	Mousavi Sajede, Schicks Judith M.
Biodegradable Amino Acid Derivatives as Kinetic Inhibitors for CO <sub>2</sub> Hydrate Formation: Experimental and Computational Insights	Mun Seongju
Overview and Future Perspectives of the Gas Hydrate Research Society (GHRs) of Japan: Bridging Science, Industry, and Global Collaboration	Muromachi Sanehiro

Risk-free and Sustainable Hydrogen Energy Storage in an Innovative/Engineered Gas Hydrate Media	Naz Falak
Machine-Learning-Assisted Analysis of Gas Hydrate Subcooling Using Agro-Waste-Derived Amino Acids as Green Kinetic Hydrate Inhibitors	Olarinoye Fawziyah Oyefunke
Characteristics of biogeochemical signatures associated with anaerobic oxidation of methane in sediments of methane hydrate-bearing areas in northeastern Japan Sea	Ota Yuki
Advancing CH <sub>4</sub> Recovery and CO <sub>2</sub> Storage in Oceanic Sediments: An Insight into CH <sub>4</sub> -CO <sub>2</sub> Replacement Using Flue Gas Mixtures	Pagar Eti
CH <sub>4</sub> /CO <sub>2</sub> hydrate formation in presence of hydrophobic/hydrophilic amino acids and their combinations: Insights based on in-situ Raman spectroscopy	Pagar Eti , Veluswamy Hari Prakash , Pirim Claire , Chazallon Bertrand
Study of CO <sub>2</sub> Hydrate Behavior and Corrosion Characteristics for Crosscutting Risk Management in CCS Chains	Park Jiyu
Thermodynamic experiments and modelling on CO <sub>2</sub> hydrates in the presence of promoters and salts	Pham Trung-Kien , Duyen Le Quang
Kinetic experiments and modelling on CO <sub>2</sub> hydrates in the presence of promoters and salts	Pham Trung-Kien, Duyen Le Quang
Surface-Dependent Methane Hydrate Adhesion on Coated Metallic and Polymeric Substrates	Pilato Serena
Natural gas hydrates and active gas seeping on the Amazon deep-sea fan: insights from the MEGA project	Poort Jeffrey
A molecular simulation approach on CO <sub>2</sub> Hydrates	Ramalingam Vikram ,Choudhary Nilesh
Formation Kinetics and Thermodynamic Behavior of Ternary Hydrogen Clathrate Hydrates in AOT-Stabilized THF + CP + H <sub>2</sub> O Emulsions	Raspa Francesco
Combining gas hydrate and crosslinked chitosan to remove Cr(VI) from waste water	Reese Michelle
A Sand-rich gas hydrate system in the Qiongdongnan Basin, South China Sea: A Tripartite Coupled Accumulation Model	Ren Jinfeng
Revisiting CO <sub>2</sub> Hydrate Stability: Mitigating Finite-Size and Cut-Off Effects via Molecular Simulation	Romero-Guzmán Cristóbal
Hydrate formation in CO <sub>2</sub> - H <sub>2</sub> mixtures: deviation from pure CO <sub>2</sub> hydrates phase equilibrium	Rossi Federico
Nature-Inspired Surfactants for Enhanced Carbon Sequestration Using Clathrate Hydrates	Sadeh Elaheh
Biochar for heavy metal removal from concentrated wastewater generated from a water purification process using gas hydrates	Schicks Judith M.
Removal of Tetramethylammonium Hydroxide from Semiconductor Wastewater Using Surfactant-Stabilized Cyclopentane Hydrate Emulsions	Seo Haemin
Roles of montmorillonite clay on the kinetics and morphology of CO <sub>2</sub> hydrate in hydrate-based CO <sub>2</sub> sequestration	Sha Zhibin
Methane hydrates depositon growth on inner pipe wall within slurry flow field	Shibata Naoto

Salinity-induced enhanced kinetic selectivity of SF <sub>6</sub> /N <sub>2</sub> binary hydrate formation for gas separation	Shimeles Bekele
Study on the sand production behavior of heterogeneous hydrate sediments under the combined action of gravel and MICP technology	Shunbo Qin , Sun Jiabin
Evaluation of the inhibition of gas hydrate formation in three-phase systems in the presence of modified chitosan	Silva Jose
Investigating the Influence of Amines on the Dissociation Conditions of CO <sub>2</sub> +CH <sub>4</sub> Clathrate Hydrate at the Molecular Scale	Sinehbaghizadeh Saeid
Unraveling the Formation Mechanism and Cage Conversion Dynamics of Promoter-Assisted Hydrogen Hydrates: A Molecular Dynamics Study	Song Guangchun
Proton conduction mechanism in single-crystalline tetra-n-butylammonium salt semiclathrate hydrates	Sugahara Takeshi
p2f-hydratecalc: A web app for the prediction of natural gas hydrate equilibrium and inhibition	Sum Amadeu
Formation kinetics of CO <sub>2</sub> hydrates in marine sediments from the South China Sea	Sun Jiyue
GasHydrate Methane Gases Emission Geohazards	Sunjay Sunjay
Designing Efficient Gas Storage Systems through Counterion-Tuned Methane Hydrate Formation	Tajik Arash
Cage occupancy analysis of noble gas hydrates using Gibbs Ensemble Monte Carlo simulations	Takahashi Ruki
Pore-Scale Numerical Study on Fluid Behavior in Gas Hydrate Bearing Sediments: Effects of Formation-Dependent Morphology on Permeability and Tortuosity	Takahisa Hiroya
Microstructural evolution of CO <sub>2</sub> hydrates in sedimentary matrices observed with synchrotron X-ray computed tomographic microscopy	Takeya Satoshi
Thermal storage properties of semiclathrate hydrates formed with N4446 salt	Tanaka Rio
Magnesium geochemistry of methane-derived authigenic carbonate in cold seep	Tang Yukai
A fully implicit multiphysics simulator for field-scale gas recovery from hydrate-bearing sediments	Tang Zichun
Models of CO <sub>2</sub> hydrate stability maps in the worldwide oceans	Tinivella Umberta
Prediction of the three-phase coexistence line of the ethane hydrate from molecular simulation	Torreon Rios Miguel Jesús
Hydrate Formation Kinetics and Implications for CO <sub>2</sub> Injection Operations	Torres Larissa
Methanol Partitioning in Methane and Methane-Ethane Mixture	Torres Larissa
Water content measurements on a typical CCS gas mixture	Torres Larissa
On the Calculation of the Enthalpy of Dissociation of CO <sub>2</sub> sI Hydrates along the Three-Phase Equilibrium Line	Tsimpanogiannis Ioannis
Promotional effects of dissociated water and sediments on the nucleation behavior of CO <sub>2</sub> hydrate	Uchida Tsutomu

An experimental setup to evaluate the stability of hydrogen clathrate hydrates in simulated planetary conditions	Urso Riccardo Giovanni
Gas hydrate seafloor features offshore Chilean margin	Vargas Cordero Iván De La Cruz , Tinivella Umberta , Giustiniani Michela, Lucia Villar-Muñoz , Bento Joaquim P.
Vinylpolyamide-b-poly-pentolactone Amphiphilic Block Copolymer as a Dual-Functional Kinetic Hydrate Inhibitor and Anti-Agglomerant for Flow	Wan Li
High-density hydrogen storage in hydrates using porous biochar and tetrahydrofuran	Wang Yanhong
Biogeochemical Cycling in the Marine Plastisphere: Mechanisms, Ecological Risks, and Emerging Implications for Deep-Sea Cold Seep Ecosystems	Wang Yingying
Investigation into the Regulatory Mechanisms of Depressurization-Assisted CO <sub>2</sub> Replacement and Methane Recovery	Xia Zhiming
Authigenic Carbonate Sediments are Important Media for Methane Storage and Hydrate Formation in Deep-Sea Cold Seep Environments	Xie Yan , Feng Jingchun , Wang Bin
Study on the Joint Acoustic-Electrical Response Characteristics of Natural Gas Hydrate-Bearing Sediments	Xing Donghui, Li Xian
Breaking the CO <sub>2</sub> Hydrate Nucleation Bottleneck: A Molecular Co-guest Strategy for Efficient Carbon Capture and Storage	Xu Chun Gang
Enhancing Geological CO <sub>2</sub> Storage Security through Pressure-Path-Controlled Formation of CO <sub>2</sub> Hydrate Caprocks	Xuan Dejun
Anaerobic oxidation of methane related with manganese oxides in marine sediments	Xue Yuan
Investigation into the Swelling Changes of Porous Media during Natural Gas Hydrate Phase Transition	Yan Kefeng
Self-preservation effect exceeding 273.2 K by introducing deuterium oxide to form CO <sub>2</sub> hydrate	Yang Di , Lan Xiaobing , Li Dongdong , Yu Yanan , Chen Jun
Study on Reservoir Response Mechanisms During Hydrate Decompression Exploitation Under Gravel-packing Completion	Yang Dianheng
In-situ rapid formation of self-sinking composite CO <sub>2</sub> hydrate for deep-water sequestration	Yang Huijie
First estimation of the gas hydrate and free gas saturation in the Mackenzie Trough (Canadian Beaufort Sea) using the multi-channel seismic data and Effective Medium Theory	Yeonjin Choi
The Araon Mounds: An Active Gas Hydrate Province on the Western Chukchi Plateau, Arctic Ocean	Young Keun Jin
Simulation Study on Morphological Evolution of CO <sub>2</sub> Hydrate Crystal Growth Based on a 3D Pore Model and Its Impact on Pore Permeability Characteristics	Yu Tao
Heavy Water Enrichment via Forming cyclopentane Hydrate	Zang Yonghuan , Lan Xiaobing, Chen Jun, Guo Kai , Zhang Wenxiang

NMR Investigation of unhydrated water in hydrate of porous media	Zhan Jing
Mechanistic insights into CO <sub>2</sub> hydrate dissolution and phase transition behavior	Zhang Lei , Song Wei , Chen Bingbing
Study on the bubble intrusion mechanism of methane hydrate formation in a restricted space	Zhenchao Li
GHCUGYSN: A Numerical Simulation Platform for Natural Gas Hydrate Extraction with Embedded Discrete Fracture Modeling	Zhigang You
LCCBM hydration purification SPB-SR prediction model based on Raman data	Zhong Dongliang
Physics-Constrained Deep Learning: A Novel Approach for NGH Saturation Evaluation by Embedding a Trainable Rock Physics Module	Zhou Hang , Xia Jialong , Li Zikun , Ning Fulong
Phase Transition Characteristics and Process Optimization of CO <sub>2</sub> Droplet-Hydrate Conversion under Variable Injection Flow Rates	Zhu Junlong
